Say it to the
EDIPHONE
Edison's Dictating Machine.

WHAT YOU TAKE FROM OVERHEAD YOU ADD TO PROFIT

REDUCED overhead means extra net profits. If the Ediphone can cut dictation and correspondence costs by 50%—if the Ediphone can save your time (a gain of an hour a day) and your stenographer's time (a gain of 2 hours a day) and enable you both to double your daily output with no greater effort, then it is worth investigating.

Let our Booklet "Now, How About My Business" tell you how the Ediphone cuts down overhead and brings you extra profits every year. Phone or write for it today.

But It Does Consist

in knowing where to locate necessary information quickly when you want it.

Might's Method of Reproducing

Superior Typewritten Letters

The Typewritten Letter is the only common vehicle in business to-day for the exchange of correspondence.

More business is done and more sales effected by the Typewritten Letter than by any other single medium.

Might's Superior Quality Typewritten Letters embrace all the essential features necessary in mechanical production.

New Type Set for Every Letter—This affords the appearance of reproduction from a new typewriter.

Guaranteed Fill-in—By the use of new typewriters for all work of filling in to match, the finished letter can be guaranteed in every mechanical detail

Proofs—These can be delivered with the least possible delay, and during the greater part of the year Might's Setting Division operates both day and night.

Holding Type Set—For the convenience of those who may desire to run a further supply of letters later on, type is held set on request, for a reasonable period, without charge.

Prices—Might's prices on typewritten letters are considerably below the charges necessary on the old systems, because you benefit by our economies.

By using Mightographed Typewritten Letters you have the opportunity of combining with these outstanding features an unexcelled delivery service and the co-operation of our complete direct mail plant.

GAS . . .

"Where heat is required, you can do it better with gas" is amply proved by its large scale use in Toronto homes and factories.

Gas responds instantly to any demand made upon it whether it is to boil the domestic kettle or bake a thousand loaves of bread.

Gas heat is under easy and accurate control. It gives a quick continuous and steady heat. It eliminates "spoilage" in home and factory.

Gas is a constant supply. It gives a twenty-four-hour-a-day service, every day in the year.
